(a)
M=10
Simulated histogram
Normal fit: $\mu = 35\,\sigma = 5.4$
Var
Probability density
$\langle V \rangle$
Total face value V
(b)
M=50
Simulated histogram
Normal fit: $\mu = 175\,\sigma = 12.1$
Var
Probability density
$\langle V \rangle$
Total face value V
(c)
M=100
Simulated histogram
Normal fit: $\mu = 350\,\sigma = 17.1$
Var
Probability density
$\langle V \rangle$
Total face value V
